

Accelerate business card printing with Setup and Go simplicity.

Automate your business card printing and maximize the productivity of your Xerox® digital press. Choose Xerox® FreeFlow® Setup and Go Productivity Apps for fast, easy prepress programming.

Run more business card jobs with less setup time.

Here's the challenge: your customers need business cards. But business cards take more than their fair share of setup time to run, especially given their slim profit margins. Skilled operators have to create PDFs, lay out various multi-up schemes depending on your Xerox® digital press sheet size and manage color.

With the Xerox® FreeFlow Setup and Go Business Card Productivity App, all those time-consuming hassles are replaced by an easy-to-use automated workflow. All it takes is a few clicks to create PDFs, design layouts and optimize color—all parameters specifically tailored to your Xerox® digital press. No manual calculations are required and you'll enjoy consistent results job-to-job, operator-to-operator. You can even preview jobs on screen prior to sending to print, ensuring accuracy and eliminating the need for proof printing.

Make your Xerox® digital press even more productive.

The FreeFlow Setup and Go Business Card Productivity App is an easy-to-implement productivity booster. By virtually eliminating most business card prepress steps, it frees up your highly skilled prepress operators to focus on more complex, higher-profit jobs.

All Xerox® FreeFlow Setup and Go Productivity Apps leverage the power of Xerox® FreeFlow Express to Print—a cost-effective workflow tool with automated prepress and visual job ticketing. Its simple visual interface displays the complete job on screen with multiple views to ensure accuracy. Dozens of predesigned templates and embedded workflows enable even new or less-skilled operators to produce business cards and other common jobs quickly.

Xerox® FreeFlow Express to Print is completely customized for your press. It automatically optimizes settings to the exact capabilities of your press: color or mono, sheet sizes and finishing options. Your labor

costs are drastically reduced and your Xerox® digital press will operate more efficiently. The Xerox® FreeFlow Setup and Go Productivity Apps, including predesigned business card layout designs and workflows, enable you to produce more jobs and maximize the investment you made in your Xerox® digital press.

We're with you every step of the way.

To ensure your business receives every advantage possible, Xerox will provide you guidance from the industry's very best. Xerox-trained technical support will come on-site to work with you side-by-side, delivering a short Setup and Go tutorial and a test run of your own personalized business card workflow. You will learn how to maximize your Xerox® digital press productivity, produce business cards faster than you ever thought possible and free up your valuable resources so they can focus on what matters most: your customers.

It's one more way the Xerox® FreeFlow Setup and Go Productivity Apps accelerate your business card production and drive increased revenues and profits.

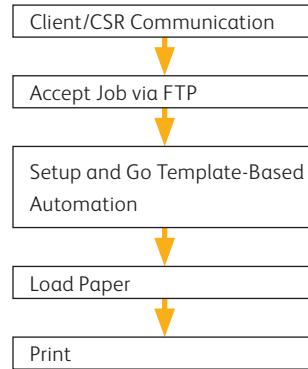

Take time out of your process and put money back in your pocket.

Current State

Future State

Reduce production time by just 5% for a business card print job and save more than \$25. It may not seem like a lot at first glance.

Look closer.

- Run 10 of those jobs in one day and you have saved \$250.00.
- At the end of the week you have an extra \$1,250.00 in your pocket. That's \$5,000.00 per month and \$60,000.00 per year!

Simplify steps through automation and the savings will follow. Produce more jobs and the revenue will grow. Pick up the pace on the road to success with FreeFlow® Setup and Go Productivity Apps and your Xerox® digital press.
