

# Xerox® EX-i 280 Print Server Powered by Fiery® v3.0

SPECIFICATIONS

The Xerox EX-i 280 Print Server for the Xerox® Versant® 280 Press delivers world-class color output and integrated tools to build an efficient, profitable workflow.

## GET YOUR CORPORATE COLORS RIGHT

Fiery Spot-On and Fiery TrueBrand ensure accurate brand color reproduction, like PANTONE® or custom spot colors — even from Microsoft Office files. Fiery Edge technology gets the most precise and stunning results from Fiery Driven printers. It achieves the best-possible gamut for both spot and process color reproduction.

Fiery Ultra Smooth Gradients combines 10-bit architecture and special processing to deliver smooth vector gradients that will delight your customers by printing with the true appearance designers intended.

## A SCALABLE SOLUTION

The Fiery server can grow along with your business requirements. A complete range of optional tools enable imposition, composition, advanced makeready, automated file submission, intelligent automation technology, advanced color/image correction and spot color management, color profiling, integration with business systems, and Adobe PDF Print Engine support.

## SIMPLIFY AND STREAMLINE YOUR WORKFLOW

Automate job submission and eliminate repetitive workflows for faster, error-free printing with Fiery Hot Folders and Virtual Printers. Take advantage of Fiery presets to save time when submitting jobs.

## CREATE PROFESSIONAL PRINTED MATERIALS QUICKLY AND EASILY

Produce professional materials in just three simple clicks with Fiery VUE, a free 3D “visual print application” that guides you through an interactive and intuitive workflow — ideal for applications such as printed presentations, booklets, sales guides, and training manuals.

## TAKE IT TO THE LIMIT

Add the Xerox All Stocks Rated Speed (ASRS) option, and print 25% faster on every stock up to 400 gsm. The Xerox upgraded IDM/ASRS Decurler Module now makes speed and value possible. Build a more profitable future faster with the ASRS option and the Xerox EX-i 280 Print Server.
