

Xerox® AltaLink® C8230/C8235/C8245/C8255/C8270 - Europe Paper and Speciality Media Guide

Version 1.0 - September 2024

For your convenience, this guide includes the Recommended Media List

The Recommended Media List contains Xerox® paper and specialty media, digitally optimized, designed from stringent specifications and manufactured for optimal and constant image quality performance.

Xerox® branded paper and specialty media have undergone rigorous testing by Xerox. Any paper and print media that is featured on the Recommended Media List for a specific Xerox® printer or digital press will give optimum performance. This is how Antalis can offer 100% Performance Guaranteed.

Learn more at www.performance-guaranteed.com

Important Notes:

All media is listed by product, paper type, paper tray settings - image quality, weight (standard gsm), re-order number, size, tray runability, and integrated office finisher runability. The additional information column is for hints and tips on how to run certain media applications. Machine reliability specifications may be affected by increased usage of Cardstock and Glossy Cardstock modes. In addition, variances in machine reliability may occur due to extended use of some media types. Your Xerox service representative can advise you on using Cardstock and Glossy Cardstock modes or special application media types for long duration copy/print runs.
