Recommended Xerox Media for Phaser® 7800 - Europe

Version 2.0. June 2012
This supersedes any previous Recommended Media for Xerox Phaser 7800.

Important Notes:
All media is listed by product, machine run mode, weight (standard gsm), re-order number, size, and tray runnability. The additional information column is for hints and tips on how to run certain media applications.

Media recommendations made in this publication are based on qualification tests* conducted using standard test images with moderate to heavy image area coverage. Test duration for each product/media type is based on the suggested machine monthly copy/print volume. Test machines are maintained within specifications defined by user documentation.

* Testing Environment temperature range of 60-75 deg. F, Relative Humidity range 20-40 ％.

*Machine reliability specifications may be affected by increased usage of the Transparency, Card Stock, Glossy papers, Label, and other special modes. In addition, variances in machine reliability may occur due to extended use of some media types. Your Xerox service representative can advise you on special application media types for long duration copy/print runs.

For specifications and a description of the various media types discussed in this publication, please refer to www.xerox.com.

For additional recommended Phaser media, look under Supplies on: http://www.office.xerox.com/ and select your Product Family.

Warranty Disclaimer:
Xerox makes no guarantees or warranties, either expressed or implied, concerning the performance, use or replacement of non-Xerox branded media or throughput products. Customers should inquire directly of their paper distributor or manufacturer for any guarantees they may offer. When purchasing a particular media product for the first time, customers are advised to purchase small quantities to ensure that their expectations are met.

The quality of Xerox supplies is consistent from ream to ream, carton to carton and it is backed by a Xerox 100 ％ guarantee. The quality of non-Xerox branded paper may vary from ream to ream or carton to carton, so for optimum performance on Xerox colour equipment, use only the best - Xerox Supplies.

For the latest line of Xerox supplies contact your local Xerox representative or a recommended distributor. For the most recent version of this list visit www.xerox.com/europaper

Phaser 7800 Recommended Media List — Europe — June 2012

Legend

- Plain / Bond / Recycled (75 - 105 gsm)
- Lightweight Glossy Cardstock (106 - 169 gsm)
- Glossy Cardstock (170 - 256 gsm)
- Heavyweight Glossy Cardstock (256 - 300 gsm)
- Extra Heavyweight Glossy Cardstock (301 - 350 gsm)
- Transparency
- Lightweight Cardstock (106 - 169 gsm)
- Cardstock (170 - 256 gsm)
- Heavyweight Cardstock (257-300 gsm)
- Extra Heavyweight Cardstock (301-350 gsm)
- Labels

Trays
- A = Auto Duplex
- AK = Auto Duplex with Heavy Duty Media Kit
