

Tested Media List for Xerox® Wide Format IJP 2000

Version 2.3 Updated May 2015

This supersedes any previous Recommended/Tested Media List for Xerox® Wide Format IJP 2000.

Important Notes:

Media recommendations made in this publication are based on qualification tests conducted using standard test images with moderate image area coverage. Test machines are maintained within specifications defined by user documentation.

This list is provided as a reference to customers to understand some of the products that have been evaluated.

Reliability is based on customer operating environment and application mix, and also may be affected by high usage of heavyweight and specialty stocks. In addition, variances in machine reliability may occur due to extended use of some media types.

Warranty disclaimer:

Xerox makes no guarantees or warranties, either expressed or implied, concerning the performance, use or replacement of non-Xerox branded media or throughput products. Customers should inquire directly with their paper distributor or manufacturer for any guidance when purchasing a particular media product for the first time, customers are advised to purchase small quantities to ensure that their expectations are met. The quality of non-Xerox branded paper may vary.
