Summary Table – Voluntary Product Accessibility Template® (VPAT®)

Criteria	Conformance Level	Remarks and explanations
Chapter 3: Functional Performance Criteria	Supports	The product is compliant with Chapter 3
Chapter 4: Hardware	Partially Supports	Compliant with minor exceptions concerning speech, braille, and input controls
Chapter 5: Software	Not applicable	The product does not support the software criteria set forth
Chapter 6: Support Documentation and Services	Supports	The centralization of documentation, training, and support services for most Xerox products allows us to achieve compliance across the corporation.

Software Version Evaluated: 103.022.040.36310

Accessories Included in Evaluation: external keyboard, narrator (inbuilt in windows), headset, and XCA

Evaluation Methods Used: testing based on general product knowledge, similar to another evaluated product, and testing with assistive technologies

Chapter 3: Functional Performance Criteria (FPC)

Criteria	Conformance Level	Remarks and explanations
302.1 Without Vision	Supports	Person without vision can make use of the rocker switch behind the door to power on/off the machine. Also, supported with XCA as the speech output can be directed to the individuals
302.2 With Limited Vision	Supports	Person with limited vision is able to perform all the operations available based on limited vision of 20/70
302.3 Without Perception of Color	Supports	At least one mode of operation that does not require user perception of color is available
302.4 Without Hearing	Supports	One mode of operation that does not require user hearing is available
302.5 With Limited Hearing	Supports	One mode of operation that does not require user limited hearing is available
302.6 Without Speech	Not applicable	Speech is not required for this product
302.7 With Limited Manipulation	Supports	At least one mode of operation that does not require fine motor control or simultaneous manual operations is available
302.8 With Limited Reach and Strength	Supports	At least one mode of operation that does not require limited reach and limited strength is available
302.9 With limited Language, Cognitive, and Learning Abilities	Supports	Features are provided for individuals with limited cognitive, language, and learning abilities for simpler and easier use

Chapter 4: Hardware

Criteria	Conformance Level	Remarks and explanations
402 Closed Functionality		
402.1 General		
402.2 Speech-Output Enabled		
402.2.1 Information Displayed On-Screen	Supports	Speech is enabled via XCA. However machine cannot be powered on/off via XCA.
402.2.2 Transactional Outputs	Not applicable	There is no transactional output
402.2.3 Speech Delivery Type and Coordination	Supports	Speech is enabled via XCA and can be directed to individuals via headsets. However, machine cannot be powered on/off via XCA
402.2.4 User Control	Partially Supports	Speech is enabled via XCA. However, there is no repeat and pause option
402.2.5 Braille Instructions	Partially Supports	Speech output is not supported in the machine but is via XCA. XCA is specifically set up to enable speech. Using XCA it is assumed the user is aware of the accessibility features
402.3 Volume		
402.3.1 Private Listening	Supports	This product provides a mode of operation for controlling the volume when in private listening mode
402.3.2 Non-private Listening	Partially Supports	On / Off is not a feature of XCA. On/Off operations are

Criteria	Conformance Level	Remarks and explanations
		done in hardware but the device does not provide speech output Speech is enabled via XCA. However, there are no volume controls in XCA."
402.4 Characters on Display Screens	Supports	At least one mode of characters displayed on the screen is in sans serif font is available
402.5 Characters on Variable Message Signs	Not applicable	This product does not have variable message signs
403 Biometrics		
403.1 General	Not applicable	Biometric forms are not used.
404 Preservation of Information Provided for Accessibility		
404.1 General	Not applicable	The device does not transmit or conduct information or communication.
405 Privacy		
405.1 General	Supports	The same degree of privacy of input and output is provided to all individuals
406 Standard Connections		
406.1 General	Supports	The data connections are fax line and internet cable and they are industry standard formats
407 Operable Parts		
407.2 Contrast	Supports	The product provides keys and controls with contrast visually from background surfaces
407.3 Input Controls		
407.3.1 Tactilely Discernible	Supports	Input controls are operable by touch and tactilely discernible without activation.
407.3.2 Alphabetic Keys	Partially Supports	Through external keyboard, user can enter the text for providing the email destination of the job but user will not be able to go to that 'editable text' field in LUI via keyboard
407.3.3 Numeric Keys	Partially Supports	Through external keyboard, user can enter the numeric values for providing the quantity of the job but user will not be able to go to that 'quantity' field in LUI via keyboard
407.4 Key Repeat	Not applicable	Key repeat is not supported.
407.5 Timed Response	Partially Supports	Alert provided only visually but not by sound
407.6 Operation	Supports	Controls do not require simultaneous use of two hands, and the force to activate hand-operated controls is less than 5 lbs.
407.7 Tickets, Fare Cards, and Keycards	Not applicable	Tickets, Fare card or keycard is not used in product
407.8 Reach Height and Depth		

Criteria	Conformance Level	Remarks and explanations
407.8.1 Vertical Reference Plane	Supports	At least one of each type of operable part of stationary ICT at a height conforming to 407.8.2 or 407.8.3 is available
407.8.1.1 Vertical Plane for Side Reach	Supports	Where a side reach is provided, the vertical reference plane is 48 inches (1220 mm) long minimum.
407.8.1.2 Vertical Plane for Forward Reach.	Supports	Where a forward reach is provided, the vertical reference plane is 30 inches (760 mm) long minimum
407.8.2 Side Reach	Supports	Where a side reach requires a reach over a portion of the ICT, the height of that portion of the ICT is 34 inches (865 mm) maximum.
407.8.2.1 Unobstructed Side Reach	Supports	Where the operable part is located 10 inches (255 mm) or less beyond the vertical reference plane, the operable part is 48 inches (1220 mm) high maximum and 15 inches (380 mm) high minimum above the floor.
407.8.2.2 Obstructed Side Reach	Supports	All operable controls are within specification.
407.8.3 Forward Reach	Supports	Where a forward reach allows a reach over a portion of the ICT, the height of that portion of the ICT shall be 34 inches (865 mm) maximum
407.8.3.1 Unobstructed Forward Reach	Supports	The operable part is 48 inches (1220 mm) high maximum and 15 inches (380 mm) high minimum above the floor
407.8.3.2 Obstructed Forward Reach	Supports	Supports maximum allowable forward reach to an operable part is 25inches
407.8.3.2.1 Operable Part Height for ICT with Obstructed Forward Reach	Supports	All operable parts are within specification
407.8.3.2.2 Knee and Toe Space under ICT with Obstructed Forward Reach	Not applicable	There are no operable controls.
408 Display Screens		
408.2 Visibility	Supports	At least one display screen is visible from a point located 40inces above floor space
408.3 Flashing	Supports	The power key LED conforms
409 Status Indicators		
409.1 General	Supports	Rocker switch provides visual and tactile feedback
410 Color Coding		
410.1 General	Supports	Color coding and additional means of unique identification (e.g., text and symbols) are used.
411 Audible Signals		
411.1 General	Supports	Audible signals and additional means of unique identification (e.g., cues) are used.
412 ICT with Two-Way Voice Communication		
412.2 Volume Gain		
412.2.1 Volume Gain for Wireline Telephones	Not applicable	This product does not use analog or digital wireline telephones.
412.2.2 Volume Gain for Non-	Not applicable	The device does not support bi-directional voice

Criteria	Conformance Level	Remarks and explanations
Wireline ICT		communication over a telephone line.
412.3 Interference Reductions and Magnetic Coupling		
412.3.1 Wireless Handsets	Not applicable	The product does not produce electromagnetic fields.
412.3.2 Wireline Handsets	Not applicable	The product does not produce electromagnetic fields.
412.4 Digital Encoding of Speech	Not applicable	This product does not support digital encoding of speech
412.5 Real-time Text Functionality	Not applicable	This product does not support real-time text functionality
412.6 Called ID	Not applicable	Caller ID and/or similar telecommunications are not present.
412.7 Video Communication	Not applicable	The product is not a video or multi-media product.
413 Closed Caption Processing Technologies		
413.1.1 Decoding and Display of Closed Captions	Not applicable	The product is not a video or multi-media product.
413.1.2 Pass-Through of Closed Caption Data	Not applicable	The device does not transmit or conduct information or communication.
414 Audio Description Processing Technologies		
414.1.1 Digital Television Tuners	Not applicable	The product is not a video or multi-media product.
414.1.2 Other ICT	Not applicable	The product is not a video or multi-media product.
415 User Controls for Captions and Audio Descriptions		
415.1.1 Caption Controls	Not applicable	The product is not a video or multi-media product.
415.1.2 Audio Description Controls	Not applicable	The product is not a video or multi-media product.

Chapter 6 Support Documentation and Services

Criteria	Conformance Level	Remarks and explanations
601.1 Scope		
602 Support Documentation		
602.2 Accessibility and Compatibility Features	Supports	Accessibility and compatibility information is available on www.xerox.com/section508/.
602.3 Electronic Support Documentation	Supports	Website provides guide to the device
602.4 Alternate Formats for Non-Electronic Support Documentation	Supports	User guide is provided as an E-book to the customer
603 Support Services		
603.2 Information on Accessibility and Compatibility Features	Supports	XCA is provided to the customer with the user guide

Criteria	Conformance Level	Remarks and explanations
603.3 Accommodation of Communication Needs	Not applicable	Customer support service contact details available in the user guide and also available on website. Specific support for persons with disability not provided.

What is the Voluntary Product Accessibility Template (VPAT)?

The purpose of the Voluntary Product Accessibility Template is to assist Federal contracting officials in making preliminary assessments regarding the availability of commercial Electronic and Information Technology products and services with features that support accessibility.

The first table of the Template provides a summary view of the Section 508 Standards. The subsequent tables provide more detailed views of each subsection. There are three columns in each table. In the subsequent tables, the first column contains the numbered paragraphs of the subsections. The second column describes the supporting features of the product with regard to that paragraph. The third column contains any additional remarks and explanations regarding the product.

For additional information on these and other accessories, contact your Xerox sales representative or call 1-800-ASK-XEROX (1-800-275-9376).

Other company trademarks are also acknowledged.
